

Tolleson Union High School District in Partnership with ASU present...

American Dream Academy

The American Dream Academy is a program that helps create an extraordinary partnership between families, schools, and the university in which all partners collaborate to transform each child's educational environment at home and at school. The goal of ADA is to help every child achieve his or her greatest academic potential. The American Dream Academy demonstrates ASU's commitment to access, so that all residents of Arizona may aspire to, and achieve a higher education.

ADA helps parents to instill the value of education within themselves and their children.
