

Our Lady Queen of Peace School has developed a technology plan which will ensure students and staff have the 21st century technology skills necessary for success. This handbook will provide parents and students with policy and procedures that will ensure acceptable and responsible use of technology as we move to our 1:1 initiative.

STUDENT 1:1 AND TECHNOLOGY ACCEPTABLE USE HANDBOOK

2015-2016

21st Century Learning Committee

INTRODUCTION

Our Lady Queen of Peace School is implementing a 1:1 initiative to transform teaching and learning within the 21st Century. The initiative gives students the tools to have instant access, through the use of technology, to the world of information and also to become producers rather than just consumers of information. By providing each Our Lady Queen of Peace Middle School student with 24/7 access to technology through the initiative, Our Lady Queen of Peace will be able to enrich the learning that takes place in and out of classrooms. The rules set forth in this Handbook, as well as the Middle School Handbook, apply to any use of Our Lady Queen of Peace's technology, whether this access occurs on or off campus.

After reviewing the document, both the student and parent/guardian must sign the Acknowledgment Form (Attachment A), indicating their understanding of the guidelines and procedures set forth in this Handbook. The Acknowledgement Form must be received by Our Lady Queen of Peace main office by August 25, 2015. Students will not receive access to iPad devices, equipment and/or network resources until the acknowledgement form is signed and received.

I. TECHNOLOGY

A. TECHNOLOGY PROVIDED

"Device" refers to the iPad provided to a student through the initiative. Our Lady Queen of Peace will retain records of the serial numbers of provided devices" equipment" refers to the protective bag or case, AC charger, software and/or other items provided to and/or used by students in the operation, use and/or safety of a device.

Users are expected to treat Our Lady Queen of Peace devices, equipment, and network resources with care and shall report any loss, damage, or malfunction to the Our Lady Queen of Peace Technology Department immediately. Users may be financially accountable for any damage resulting from negligence or misuse and could be disciplined in accordance with this handbook; as well as any other relevant Our Lady Queen of Peace policy. Moreover, Our Lady Queen of Peace administrative staff retains the right to collect and/or inspect devices and/or network resources at anytime, including via electronic remote access; and to alter, add, or delete installed software or hardware. There are no reasonable expectations of privacy while using Our Lady Queen of Peace devices or network resources.

C. RESPONSIBILITY FOR ELECTRONIC DATA

It is the sole responsibility of students to back-up their data as necessary. Our Lady Queen of Peace provides directions for data backup, but does not accept responsibility for any such backup of student material.

D. SUBSTITUTE DEVICES

In the event that a device is inoperable Our Lady Queen of Peace has a limited number of loaner devices for use. Our Lady Queen of Peace, however, cannot guarantee that a loaner will be available at all times. If it is determined that an inoperable device was damaged intentionally, the student will not be able to take the loaner device home. Students, who accidentally leave their device at home and/or bring their device to Our Lady Queen of

Peace uncharged, will not be allowed to check-out a loaner device. Students may not use a personal device as a substitute for a school issued device.

E. STANDARD OF CARE

Students are expected to take certain steps to ensure proper care of devices, equipment and Network resources. Students are expected to follow all the specific care guidelines listed in this handbook, Loss or damage resulting in failure to abide by the rules below may result in full financial responsibility.

Students shall:

1. Treat devices, equipment, and network resources with as much care as if they were their own property. Students have the option of keeping devices following graduation.
2. Not attempt to remove or change the physical structure of a device, equipment or network resource. This includes removing or changing the keys, screen cover or plastic/aluminum casing. Doing so will void the warranty, and the student/family will be responsible for any repairs.
3. Not remove or interfere with the serial number or any identification placed on devices or equipment.
4. Keep devices and equipment clean. Device screens show fingerprints and smudges easily, so students should be sure to follow proper cleaning to keep device screens looking new. Students should never use a chemical to clean a device screen, but instead should use a soft, dry, lint-free cloth.
5. Not act in any way so as to permanently alter devices or equipment.
6. Not put stickers or use any type of markers on a device or equipment.

Removable iPad covers for the iPad may be purchased at the student's sole expense, but the following guidelines must be followed:

- i. Device covers should show respect for the student, those around the student, Our Lady Queen of Peace and the community. Laptop skins not appropriate for a school setting will be removed.
 - ii. The promoting of products, which are illegal for use by minors such as alcohol, tobacco, or drugs, are not acceptable.
 - iii. The displays of obscene material, profanity, or references to subversion are not appropriate.
 - iv. Removable computer skins/covers purchased must fit the computer properly and cause no damage when removed.
7. Keep devices and equipment in safe and secure places.
- a. Devices and equipment should not be left on the floor where they might be stepped on or are within reach of small children or pets.
 - b. Devices and equipment should not be left in a car or anywhere they might be exposed to extreme temperatures. The locked trunk of a car could be an acceptable storage place so long as it's not excessively hot or cold.
 - c. Devices and equipment left in unattended classrooms or other areas are considered "unattended" and will be confiscated by faculty or staff as a protection against theft. Unattended and unlocked devices and equipment, if damaged or stolen, will be the student's financial responsibility.
 - d. Devices and equipment should never be left in school vehicles (bus), in the gym, in a locker room, on playing field, or in other areas where they could be damaged or stolen.
8. Not remove devices from protective cases.

9. Keep devices and equipment away from all liquids. Exposure to liquids will severely damage devices and equipment and may result in large repair costs.
10. Maintain a 100% working device at all times. If a device is not working properly, refer to Section IV, Damage or Loss of Technology, below.
11. Bring a device to class each day, fully charged. It is imperative that students bring their fully charged device to school each day for their learning. Teachers will be designing lessons based on students having access to their device. When a device is not being used in class, it is to be closed/covered (as determined by the teacher).
 - i. Students should establish a routine at home for the charging of their Devices.
 - ii. Students shall only use the charging unit provided by Our Lady Queen of Peace,
 - iii. It is the student's responsibility to maintain the power adapter and cable. The student or parent/or legal guardian will be charged for the replacement of lost or damaged power adapters. It is recommended that students not use the prongs on the charger to wrap the power cord, as over time, this has proven to damage the cord.
 - iv. Keep a device in its carrying bag/case at all times when it is not being used. Students shall not store anything (e.g., cords, papers or disks) in the area within the case designed for the device other than the device itself as this may damage the screen. It is recommended that students carry the protective bag to and from school inside their normal school pack. The bag was chosen specifically for this purpose.
12. Read and follow any maintenance alerts from Our Lady Queen of Peace.
13. Shutdown a device when it won't be used for an extended duration. Simply putting a device to sleep and not using it for several days can drain the battery to a point where it may no longer accept a charge.

14. Completely close a device lid when moving it from one point to another. Make sure no foreign objects are in-between the screen and keyboard when the lid is closed; otherwise the screen may break or become damaged.
15. Never carry a device by the screen. Be sure to use proper handling techniques and carry a device by holding the entire unit.
16. Avoid extended use of devices resting directly on his/her lap. The bottom of the Device can generate significant heat and therefore cause temporary or permanent injury. Use a barrier, such as a book or items made specifically for this purpose, when working on a device. Also, avoid lap based computing while connected to the power adapter as this will significantly increase heat production.
17. Avoid lengthy use involving repetitive tasks (such as typing and use of the track-pad). Students should take frequent breaks as well as alter their physical positions (typing while standing, sitting, leaning, etc.) to minimize discomfort. If possible, it is recommended that students set up a workstation at home with an external keyboard and mouse that allows them to situate the screen at eye level and the keyboard at lap level.
18. Return devices to Our Lady Queen of Peace at the end of the school year for updates and reimaging of the device. Students and their parent/guardian are strongly encouraged to review the user information for devices to understand more about their issued Device, its capabilities, and required care. Copies of the user information manuals may be available in the Our Lady Queen of Peace's website qopc.org/school.
