“Bulldog News”

Queen Creek High School senior Lucie Rosenberg is one of 22 students who earned a perfect score of five on an Advanced Placement (AP) exam. A total of 184 AP exams were administered by the school in different subjects with 129 students (61%) earning a score of three or above, which is three percentage points higher than the state average and more than one percent greater than the global average. Students with scores of four or five likely will save on college tuition expenses. “Those students are able to get college credit,” Queen Creek Principal Paul Gagnon told the STV Daily PRSS. “It’s a big savings for parents, especially with the rising costs of higher education.” Rosenberg and 12 others in a class of 24 earned their perfect scores on the AP Psychology exam, with 21 of the 24 scoring three or higher.
